

SUPERSONIC WAVE MOLD WASHER

# Tool Washer TW600M

Supersonic Wave **600W**  
Digital Control **Heater**  
Liquid Amount **36L**

Ensuring the reasonable cleaning of  
any contamination of molds  
in any size

## Superb Cost Effectiveness

The price of the main unit is set to be reasonable, thereby reducing the initial cost. Furthermore, the entire unit is made of stainless steel, which ensures excellent durability. The cleaning liquid are available at prices for reducing the running cost.

## Works fine on any sort of mold contamination

TW600M will work fine on the removal of various mold contaminations, including corrosion by gas and oil contamination, as well as degreasing and mold deposits of various materials.

## Makes the cleaning bath size to your original size

The cleaning bath and the operation unit/power supply unit can be separated. We can manufacture the cleaning bath in the desired size to match the size of the mold to be cleaned.
